PRETRIAL ORDER NO. 1007

In all of the above cases defendant has filed a motion requiring compliance by the plaintiffs with Federal Rule of Civil Procedure 26 or in the alternative to dismiss. These above motions have to do with plaintiffs' experts (Thomas N. Tiedt,

Ph.D.; Charles P. Riley, M.D.; and Dennis Bowsher, M.D.) who have not complied with Federal Rule of Civil Procedure 26. The court has examined the motions and agrees that there are deficiencies in the experts' submissions in regard to these matters.

These matters are referred to Special Discovery Master Gregory P. Miller so that he may call the parties before him after which he should make the appropriate recommendation to the court whether that be the imposition of a sanction, including a recommendation that the matters be dismissed, or such other sanction as the circumstances may suggest.

SO ORDERED.
